

HAPPY FEET

MY FISH

MY OPPONENT'S FISH

BATTLE FISH

Each player places 5 fish on the top grid, either horizontally or vertically. Cut out and use the fish below.

The players take turn calling out a spot on the grid using the letter and number, such as B9. The other player says **HIT** if there's a fish there, or **MISS** if they do not.

Each player should keep track of their guess by writing either a **H** (HIT) or **M** (MISS) on the grid labelled 'Opponent's Fish'.

They should also keep track of their opponent's guesses. The first player to catch all their opponent's fish wins.
